Statement of Inclusive Practice Catholic Education Diocese of Rockhampton

“The person of each individual human being, in his or her material and spiritual needs, is at the heart of Christ’s teaching; this is why the promotion of the human person is the goal of the Catholic school”

(John Paul II (1991) in Defining Features of Catholic Schools 2004 p.9)

Each person is uniquely created in the image and likeness of God where every individual has a unique and significant contribution to make. Therefore, it is the responsibility of Catholic Education to:

- uphold the dignity and rights of all in our school communities;
- value and celebrate the uniqueness of each person;
- empower each learner to be and to become a participant in an ever changing world.

Inclusive practice reflects these beliefs and is integral to the ethos of a Catholic school. Inclusive practice is not restricted to any particular group of learners or pedagogy but refers to each person in our school community. This ensures that maximum quality learning opportunities are accessible to all learners.

Catholic Education will actively and systematically promote inclusive practice by:

- identifying and removing barriers to inclusiveness in policies, structures and attitudes;
- providing a curriculum that strives to educate the whole person and meet the needs of each individual;
- assisting each learner to continually learn and grow;
- assisting each learner to become a life-long learner;
- recognising and celebrating a broad range of achievements and efforts;
- offering a flexible, safe, enjoyable, and challenging learning environment;
- promoting a collaborative approach to meeting the needs of learners.
